## **TANY, spol. s r.o. is a modern food industry company in Nýrsko in the Šumava region that specializes in production of popular processed cheeses.**

We are one of the leading processed cheese producers in the Czech Republic. Our efficient production processes are based on many years of experience, innovations and modern technologies. In recent years, we have also marketed a new, plant-based product range under the brands Tudlee and SINEA.

Our company is 100% owned by Vendevour a.s. and has been a member of the group since June 2020.

### Our production

We produce Czech processed cheeses using carefully selected ingredients and state-of-the-art European technology. Our most well-known product ranges include Delicato, Ring and Šumavský sýr. In recent years, we have also developed plant-based cheese-like products, both processed and other types, under the brand Tudlee. In 2020, we began collaborating with the SINEA brand and we are now creating even more innovative recipes. Our plant-based product range also includes the famous plant-based cream-like products made by the German brand Schlagfix, which we distribute on the Czech market. Our products, including private labels, are available in Globus, Tesco, Kaufland, Albert, Hruška and through rohlik.cz and more.

## Timeline

- 1936** — Dairy farmers' cooperative founded in Nýrsko
- 1990** — Company TANY founded
- 2004** — New modern production plant opened
- 2013** — New refrigerated warehouse and shipping facility launched
- 2017** — Launch of the brand „Tudlee“ for plant based products
- 2020** — Joined the Vendeavour Group

## Business activities

The Tudlee brand has been our innovative project in recent years. It was created in 2016 in Nýrsko as an affordable alternative to cheese products on the Czech market. The first products under the Tudlee brand included cheese-like products and chia desserts. We have gradually expanded the product range with the addition of legume and plant-based spreads. Tudlee prides itself on using high-quality ingredients and thorough testing among vegans, flexitarians, as well as celiacs and people with various lactose intolerance issues.

### EBIDA

Amounts in thousands CZK.

\* The figures do not include one-time costs associated with the acquisition of the company (CZK 5.2 million).

We are currently focused on building our own brands and increasing our market share, particularly on the traditional market. Our emphasis on innovation and increasing the company's internal efficiency is evident in EBITDA 2020 (with adjustment for one-off costs associated with the acquisition of the company\*).
